

CANNON IS  
CONGRATULATED

Order Chamber of Commerce  
Endorses His Action.

## DID JUST THE RIGHT THING

SILVER SENATORS ARE VERY GENERALLY CONGRATULATED.

A Postoffice Established at Swan Lake, Idaho—Secretary Lamont Protests Against the Revival of the Rank of Lieutenant-General in the Army—Exports and Imports for the Month of February—Salaries Instead of Fees.

(Special to The Herald.)

WASHINGTON, D. C., March 14.—Senator Cannon has received a resolution from the chamber of commerce of Ogden declaring that his vote against the tariff bill in the senate meets with their hearty approval, and that while they favor protection, they are opposed to protection in one section of the country to the exclusion of the other.

The senators who took the position of opposition to the tariff in the interests of silver are getting large numbers of letters from the extreme silver sections which they represent approving of their course and indicating that the silver states are willing to sacrifice everything to this particular interest.

A postoffice was today established at Swan Lake, Bannock county, Idaho. Floyd F. White was appointed postmaster.

## Advices Against It.

WASHINGTON, March 14.—Secretary Lamont has written a letter to Senator Hawley, chairman of the senate committee on military affairs, advising against the revival of the rank of lieutenant-general in the army at the present time. The letter was called out by sending to the secretary the bill revising this grade in General Miles' case, and asking his opinion upon it as it is customary in matters pertaining to the department. Without making any direct reference to General Miles, the secretary says that he does not see any reason for such legislation at this time. He also gives it as his opinion that the passage of the bill would be opposed to the best interests of the army.

## Imports and Exports.

WASHINGTON, March 14.—A statement issued by the Bureau of Statistics of the imports and exports of the United States for the month of February and for the eight months ended February 29, shows the exports of domestic merchandise during the month amounted to \$3,397,135, against \$4,959,344 during February 1895. For the eight months the exports aggregated \$39,283,590 or about \$40,000,000 in excess of the same period in 1895. The imports of merchandise during February amounted to \$62,487,295 of which \$23,624,006 was free of duty. For the eight months the imports, dutiable and free were \$61,402,207 less than the exports.

During February the exports of gold coin and bullion amounted to \$2,182,700, and the imports to \$1,559,689. For eight months the exports were \$33,642,982 in excess of imports, and the imports of silver coin and bullion during February amounted to \$3,362,319 and the imports \$1,411,967. For the eight months the exports of silver exceeded the imports by \$39,768,294.

## Fees vs. Salaries.

WASHINGTON, March 14.—The senate committee on the judiciary was in continuous session all day today on the proposition embraced in the legislative, executive and judicial appropriation bill to pay salaries instead of allowing fees to the officers of federal courts. The committee will recommend the change but will make several amendments to the bill as it comes to them from the house. The provision will also be recommended by the committee on appropriations before it is reported to the senate.

## X RAYS.

They Are Tried Upon Diphtheria and Other Bacilli.

NEW YORK, March 14.—The wire bacteriological department of the health board is today experimenting with the X rays and bacteria. These experiments are being made by Dr. Hoffman, Biggs and A. W. Boie. The first experiment was made today and was fairly successful. The X ray was tried first upon the bacilli of diphtheria. A number of samples were exposed to the ray for a half hour. Then the bacilli were returned to the incubator for the night for the purpose of observing the effect. This morning when Dr. Boie examined the cultures which had been exposed, he found that they had grown during the night. The object of the test was to see if the rays would not kill the germs of disease. It was reasoned by the doctors that if the rays could be made so intense as to kill the germs, they might kill the disease germs. If the bacilli had not grown during the night the experiment would have been considered successful. Dr. Boie will make a microscopic examination to see what significant changes in the bacilli have occurred, if any. A further experiment will be made with the next experiment. The effect of exposure to rays for various lengths of time will be tried.

## THE CHESS SHARPS.

NEW YORK, March 14.—And a scene of wild excitement the American chess team beat the British team by 4½ to 3½ games this evening, and this is in spite of the fact that the American games did not look promising this morning when play was resumed at the bank building at Court and Broadway. The Americans on some of the boards fought up hill gammy and kept their ground well in the remaining games. The final score stands:

Board 1—Pillsbury 1, Blackburn 1, 6 moves; 2—Shawwalter 1, Burn 1, 6 moves; 3—Bird 1, 4 moves; 4—Barry 1, 4 moves; 5—Himes 1, 4 moves; 6—Loomis 1, 4 moves; 7—Hodes 1, 4 moves; 8—Loomis 1, 4 moves; 9—Hodes 1, 4 moves;
